Letter from the editors.

Hey everyone!
Working on this year's yearbook has been such a blast and great experience. We've put in a lot of time and effort into each page along with the rest of our staff. We all hope that you enjoy it and appreciate all we've put into it. We chose the ipod theme because we think it shaped our generation. The apple company has produced numerous products that we all use on a daily basis and couldn't imagine living without, i.e. ipod! Music is a large influence in everyone's life and each person has their own soundtrack...

Best wishes to the class of 2008, good luck with the future that lies ahead and just press rewind once in awhile to remember the good memories here at GHS.

As you enter your next passage in life, keep in mind the words of your namesake

...with ever so gentle steps, walk side-by-side with all the travellers on this "thorny" path of life. They will differ from you in colour, creed (there are many paths to God) culture, and politics-but above all remember your fellow travellers have the same needs as you. Our common humanity is far more important than any religious or political ideologies. Treat every man and woman justly and gently as you would have them treat you...
